About us

Smart Desk was established in Bangalore in 2004. We provide total office furniture solutions. We service customers spread across software, manufacturing, government, education and service sectors. We provide aesthetically designed customized and cost effective solutions in modular office furniture; ranging from desks, chairs, storages, meeting tables. We also undertake reconfiguration and maintenance of modular workstations and chair servicing.

We believe in focus. Our core competence, developed over time, is in office furniture solution. Our strength is that we are the only project sales office furniture service provider in Bangalore that can provide one stop solutions including supply of different furniture brands as per the site requirement. Dealing with customers and architect / interior designer consultants with highest integrity is the only value that drives us in doing office furniture business.

We have a dedicated and professional team for project management, sales and design. Our sales office is located at the centre of the city. We have served more than 2000 satisfied customers offering them the best office furniture solution. Our customer list includes Cisco Systems India Pvt. Ltd., Strides Arcolab Ltd, St Mira High School, ISRO, Protocol Automation etc. We have executed projects of value up to 1 crore rupees.

We represent reputed brands of office furniture system. BP Ergo is India's leading manufacturer of modular furniture with factory located at Nagpur. Balaji Panel crafts is one of the quality manufacturer of office furniture with factory located in Bangalore.

Our Vision: To be the best and reputed office furniture dealer in the Bangalore.

Our Mission: To provide best office furniture system solution and strive continuously to provide excellent service to our customers.

Smart Desk with its professionalism is easy company to do business in office furniture.
